My Home Is My Castle David E. Robinson 2010-09-06 Stop foreclosure with a question. The Magic Question that will debunk any foreclosure is this: Ask this questions in court. "Should the one who funded the loan be the one who is repaid the money debt?" If the answer is Yes or No, the bank must zero out the false debt on their fraudulently created none-existent loan. There was no lawful loan made by the bank to the so-called borrower. All bankers, politicians, and judges know this truth, and they fear the wrath of the public should their dirty secret ever become known by a critical mass of the people that they have for decades been defrauding. The so-called borrower. Bankers will not answer this question in any courtroom in the world because they know that the borrower is the one who actually funded the loan. They also know that the evidence of this fact can easily be found in the bookkeeping loan entries of the bank. According to GAAP (Generally Accepted Accounting Principles).

The Doctrine of the Lesser Magistrates Matthew J. Trehwella 2013-08-10 America has entered troubling times. The rule of law is crumbling. The massive expansion of Federal government power with its destructive laws and policies is of grave concern to many. But what can be done to quell the abuse of power by civil authority? Are unjust or immoral actions by the

government simply to be accepted and their lawless commands obeyed? How do we know when the government has acted tyrannically? Which actions constitute proper and legitimate resistance? This book places in your hands a hopeful blueprint for freedom. Appealing to history and the Word of God, Pastor Matthew Trehwella answers these questions and shows how Americans can successfully resist the Federal government's attempts to trample our Constitution, assault our liberty, and impugn the law of God. The doctrine of the lesser magistrates declares that when the superior or higher civil authority makes an unjust/immoral law or decree, the lesser or lower ranking civil authority has both the right and duty to refuse obedience to that superior authority. If necessary, the lower authority may even actively resist the superior authority. Historically, this doctrine was practiced before the time of Christ and Christianity. It was Christian men, however, who formalized and embedded it into their political institutions throughout Western Civilization. The doctrine of the lesser magistrates is a historic tool that provides proven guidelines for proper and legitimate resistance to tyranny, often without causing any major upheaval in society. The doctrine teaches us how to rein in lawless acts by government and restore justice in our nation. "Use this sword against my enemies, if I give righteous commands; but if I give unrighteous commands, use it against me." -Roman Emperor Trajan, speaking to one of his subordinates This is the first book published solely addressing the doctrine of the lesser magistrates in over 400 years. Matthew Trehwella is the pastor of Mercy Seat Christian Church. He is a graduate of Valley Forge Christian College. He and his wife, Clara, have eleven children and nine grandchildren, and reside in the Milwaukee, Wisconsin area. His research and teaching on the lesser magistrate doctrine is reshaping the thinking of Americans. He was instrumental in publishing the Magdeburg Confession in 2012 - the first English translation of the document since it was written in 1550.

The Structuring of Organizations Henry Mintzberg 1979 How do organizations structure themselves? A synthesis of the empirical literature in the field, supported by numerous examples and illustrations, provides images that produce a theory. The author introduces five basic configurations of structure - the simple structure, the machine bureaucracy, the professional bureaucracy, the divisionalized form, and the adhocracy. This book reveals that structure seems to be at the root of many questions about organizations and why they function as they do.

Forming Jural Assemblies David E. Robinson 2011-02-19 We The People are the First Level of Government in a Republic. As one of We The People you can see how you, in a Jural Assembly, have Power and Authority "over" your elected free state officials of "state government" through your State/Settlement Constitution. Your State/Settlement Constitution is the road map of authority for your elected free state "Officials" which includes the "process" by which you have the power and the authority to "hire and fire" these "servants." In your State/Settlement Constitution you need to make provision for you, the We The People, to have the power and authority of removal at any time during an elected official's "term of office" to "take him out of office," via proper notice and another election which will keep the wheels of government from stalling on its track. You must have a process spelled out and pre-agreed-to in your State/Settlement Constitution. Remember, We The People will have "delegated" some of our "autonomous power and authority" to "servant representatives" — state and national Congressional people who form the two Congressional bodies of people called the Senate and the House of Representatives in their free states. We delegate some of our authority to the above mentioned servants via the State Settlement Constitution and the Constitution for the United States of America. (USA) Why do we do this? We do this because there are certain matters that one man or woman cannot deal with on a personal-vote issue. So there are "delegated" powers to other men and women who we permit to make decisions for us by "representing" us. Representative government stems from God's Old Testament instruction to have one man represent a body of 10 men, then from those 10 men, one representative is chosen to represent 100 men, then from those 100 men, one representative is chosen to represent 1000 men, and on and on.

Be the One David Robinson 2012-07-05 Presumptions? or Facts! The State operates on presumptions. Courts operate on presumptions. But what binds me to their presumptions? Where's the contract? What obligations in the contract am I allegedly bound to perform? Did I agree to it? Was the contract valid? Was mutual consideration exchanged? What type of consideration was exchanged? What is in the contract that I am supposed to perform? Was I aware of the contract? Was the contract fully disclosed? Did I sign the contract with my autograph in ink? Statutory laws are public servant codes for society's slaves; for

agents of government. We're all presumed to be employees and servants of the state. But, we're servants of God instead; students of the earth, charged with its cultivation and care.

Commercial Law Applied David E. Robinson 2012-08-01 The principles, maxims and precepts of Commercial Law are eternal, unchanging and unchangeable. They are expressed in the Bible, both in the Old Testament and in the New. The law of commerce -- unchanged for thousands of years -- forms the underlying foundation of all law on this planet; and for governments around the world. It is the law of nations, and of everything that human civilization is built upon. This is why Commercial Law is so powerful. When you operate at the level of Commercial Law, by these precepts, nothing that is of inferior statute can overturn or change it, or abrogate it, or meddle with it. It is the fundamental source of all authority, power and functional reality.

International Trust Laws Paolo Panico 2017-03-23 International Trust Laws is a wide-ranging comparative guide to the law of trusts across a number of important jurisdictions, with analysis of issues surrounding the creation of trusts, the powers and duties of trustees, mechanisms of control, and the special uses of trusts. The book combines academic rigour and analysis with a practical focus on trusts in the real world, including assets which modern settlors wish to envelop in a trust; liability concerns of trustees; and the governance, command, and control mechanisms which increasingly form the largest feature of trust creation. It also provides valuable background for trust law practitioners, whether they advise on trusts, draft trust documents, or litigate trust-related matters. The new edition has been fully revised and updated to address important developments in case law and legislation, including the UK Supreme Court decision on the "rule in Hastings-Bass" (Pitt and Futter cases), the Privy Council decision on 'reserved powers trusts' (TMSF), decisions on forced heirship issues in Jersey and Guernsey, decisions on 'asset protection trusts' in the US, the Trusts (Amendment N. 5) (Jersey) Law 2012 and Trusts (Amendment N. 6) (Jersey) Law 2013, Hong Kong's Trust Law (Amendment) Ordinance 2013, the Virgin Islands Special Trusts (Amendment) Act 2013 and Trustee (Amendment) Act 2013, Cyprus' International Trusts (Amendment) Law 2012 Cayman Islands, Trusts Law (2011 Revision), and amendments to the trusts law of New Zealand. It also offers new coverage of the retirement, removal, and appointment of trustees, with a special emphasis on trustee indemnity; and the recognition of trusts in non-trust jurisdictions (civil law jurisdictions, Eastern Europe, Islamic countries, and China).

Reclaim Your Sovereignty David E. Robinson 2009-12 Disillusionment is the dissolution of an illusion and a return to wonder, to innocence, and to truth. What is "the red pill"? The red pill is a term used in the movie The Matrix, to refer to "The undistorted truth." What distorts truth? False belief. The phrase "I don't believe it" implies that something is evident but that one does not or will not accept it because the evidence does not fit an existing belief (i.e. and existing denial). "I don't believe it" is often the first thing someone says when he eventually accepts that which becomes obvious to him in due time. This information is presented not just to dissolve mistaken belief, but to provide information that may not be readily available to a person who is unaware.

Nesara David E. Robinson 2011-08-01 Long before NESARA, a project was born to restore the United States of America to its original Constitution of the Republic, and to remove the structure of the Corporate United States. This project began in the early 1950's and involved intelligent and patriotic minds of both civilian and military background. These people over the years became known as the White Knights. Out of this restoration process came the Prosperity Programs, the Farmer Claims, and finally NESARA. The children of the wealthy families on our planet became concerned about the future of our civilization, when they observed the poverty, disease, starvation and suffering of the masses. They saw the imbalance between the wealth of the few and the destitution of the many, and agreed among themselves to try to correct it. One hundred of these wealthy children, who came to be known as "wealthy visionaries", put one million dollars each, of their money, into investment programs in the 1980's called "roll programs" to generate funds to be used for humanitarian purposes. Thus, the Prosperity Programs were born. Gradually, news of this spread to the public and millions of people invested small amounts of their meager funds to aid in these various Prosperity Programs success. Also, during the 1970's and 1980's many U.S. farmers were losing their land, machinery, buildings, and cattle due to fraudulent foreclosures by the Federal Reserve Banks, in cooperation with the IRS. Many farmers joined forces and brought a class action lawsuit against the U.S. Government, the non-federal Federal Reserve Bank, and the IRS, for fraud against the farmers.

Managing the Risks of Extreme Events and Disasters to Advance Climate Change Adaptation Christopher B. Field 2012-05-28 This Intergovernmental Panel on Climate Change Special Report (IPCC-SREX) explores the challenge of understanding and managing the risks of climate extremes to advance climate change adaptation. Extreme weather and climate events, interacting with exposed and vulnerable human and natural systems, can lead to disasters. Changes in the frequency and severity of the physical events affect disaster risk, but so do the spatially diverse and temporally dynamic patterns of exposure and vulnerability. Some types of extreme weather and climate events have increased in frequency or magnitude, but populations and assets at risk have also increased, with consequences for disaster risk. Opportunities for managing risks of weather- and climate-related disasters exist or can be developed at any scale, local to international. Prepared following strict IPCC procedures, SREX is an invaluable assessment for anyone interested in climate extremes, environmental disasters and adaptation to climate change, including policymakers, the private sector and academic researchers.

A cataclysmic shift in both Global Politics and Economics is now well under way. World Governments are coming to understand how the Global Banking System is systematically looting entire economies through theft, fraud, deception and manipulation, which in turn forces Governments to raise taxes that citizens should not have to pay.

Pain Management and the Opioid Epidemic National Academies of Sciences, Engineering, and Medicine 2017-09-28 Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

The Financial Crisis Inquiry Report Financial Crisis Inquiry Commission 2011-05-01 The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or

would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." A Wild Swan Michael Cunningham 2015-11-10 Fairy tales for our times from the Pulitzer Prize – winning author of *The Hours* A poisoned apple and a monkey's paw with the power to change fate; a girl whose extraordinarily long hair causes catastrophe; a man with one human arm and one swan's wing; and a house deep in the forest, constructed of gumdrops and gingerbread, vanilla frosting and boiled sugar. In *A Wild Swan and Other Tales*, the people and the talismans of lands far, far away—the mythic figures of our childhoods and the source of so much of our wonder—are transformed by Michael Cunningham into stories of sublime revelation. Here are the moments that our fairy tales forgot or deliberately concealed: the years after a spell is broken, the rapturous instant of a miracle unexpectedly realized, or the fate of a prince only half cured of a curse. The Beast stands ahead of you in line at the convenience store, buying smokes and a Slim Jim, his devouring smile aimed at the cashier. A malformed little man with a knack for minor acts of wizardry goes to disastrous lengths to procure a child. A loutish and lazy Jack prefers living in his mother's basement to getting a job, until the day he trades a cow for a handful of magic beans. Reimagined by one of the most gifted storytellers of his generation, and exquisitely illustrated by Yuko Shimizu, rarely have our bedtime stories been this dark, this perverse, or this true.

Democracy and Education John Dewey 1916 John Dewey's Democracy and Education addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, Democracy and Education is regarded as the seminal work on public education by one of the most important scholars of the century.
